A QUICK GUIDE FOR YOUR SAFETY (for our visitors' use)

CENTROTECNICA srl welcomes you as one of our visitors.

Our aim is to make your visit develop in the best conditions for your safety.

Therefore, we need to inform you briefly of our fire and evacuation alarms, and ask you to respect some simple rules.

- Keep your ID card, visible during your visit
- Caution! Be careful with the fork-lift traffic
- Smoking is forbidden inside the building
- Dispose any waste or garbage in appropriate dustbin in the areas
- In emergency case, follow the host instructions
- Do not pass or stay under any suspended material
- Do not touch the machines
- Before starting any operation, which could be of any danger for you or for anybody else, please ask your guide for assistance: a little more care can prevent great problems.

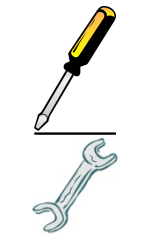

Our staff is at your disposal. Should you need any personal protective equipment (including hard hats, safety glasses, safety shoes, hearing protection, gloves) please do not hesitate to ask our staff. Our safety crew will be pleased to provide what you need during your visit.

We thank you for your cooperation and wish your staying in our company can be as fruitful as possible.

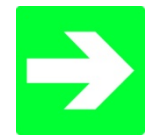

CENTROTECNICA
stress to ensure

FOR YOUR SAFETY

	MACHINE TOOLS Do not stay close to machine tools while they are in operation.
	OILS AND SOLVENTS Do not touch oils, solvents or any other substance in the workshop.
	LIFT TRUCKS AND CRANES Do not stay close to lift trucks in operation, or under any load hanging from cranes.
	ELECTRICAL EQUIPMENT Do not touch electrical equipment, electric boards or any other part which may be striking with electricity.
	ASSEMBLY AND TEST AREA Do not close to machines during test operations; our skilled personnel will perform all the operations you may be asking for.
	NOISE Machines during test operations can generate dangerous level of noise. Please use earmuffs as ear defender.

IN CASE OF

	SMOKING Smoking is forbidden inside the building.
	FIRE - Inform our staff. - Move away from that area immediately.
	EVACUATION In case of evacuation alarm (any person calling for fire in a loud voice), move to the nearest emergency exit: please, follow the standard green plates on top of the walls/ columns.
	ACCIDENT: - Ask to call for the closest person trained for first-aid - Do not move or turn any injured person.
	SPREADING OF CHEMICALS (oils, solvents, etc.) - Inform our staff in that area. - Do not touch such products for any reason.
	STRONG SMELLS - Inform our staff in that area. - Move away from that area immediately.
