## SHAKERS LDS V850-440T WITH SLIP TABLE

*2 electrodynamic shakers for testing with two different slip tables for three axes tests execution.*

*This shakers has two different armatures, the smallest is used for very high test levels on small items.*

*Very flexible systems, suitable for different kind of tests and adjustable for a wide selection of products.*

### FEATURES AND PERFORMANCE

Force sine (peak): 22 kN

Max acc. with armature 440: 60 g pk sine / 50 g rms random

Max acc. with armature 240: 125 g pk sine / 60 g rms random

Max displacement: 50,8 mm (pk-pk)

Maximum frequency: 3000 Hz

Armature diameter: 240 / 440 mm + expander

Slip table size: 750 x 750 / 640 x 640 mm

Controller channels: up to 64

Tests: Sine, Random, Sine on Random Shock, Dwell,...
